GitHub: github.com/WONG-JING-QUAN

I am a highly analytical final-year **Decision Science (Data Analytics focus)** undergraduate from Universiti Utara Malaysia (UUM), actively seeking a **3-month** industrial training placement from **August 2026 to November 2026**. Holding professional certifications from **Google, IBM, and CompTIA**, I have proven proficiency in **Python, SQL, and data visualization**. Drawing on my technical experience, I am eager to apply my quantitative modeling and database management skills to solve complex business problems and drive data-driven decision-making.

EDUCATION

Bachelor of Science with Honours (Decision Science) — Data Analytics Focus (Minor in Marketing) **October 2023 – Present**
Universiti Utara Malaysia (UUM)

- CGPA: 3.68 (Semester 6)
- Dean's List (Semester 2, 3, 4, and 5)
- Expected Graduation: Early 2027

Pre-University: Malaysian Higher School Certificate (STPM)
Core Subjects: Accounting, Economics, *Pengajian Perniagaan*, and *Pengajian Am*

CERTIFICATIONS

- **Google:** Google Data Analytics Professional Certificate (Issued Aug 2024)
- **IBM:** IBM Data Science Professional Certificate (Issued Apr 2026)
- **CompTIA:** CompTIA Data+ ce Certification (Issued Mar 2026)
- **Amazon Web Services (AWS):** AWS Certified Cloud Practitioner (Expected Completion: June 2026)

SKILLS

Technical Skills:

- **Programming & Databases:** Python (Proficient: Pandas, NumPy, Scikit-learn, Matplotlib, Plotly, XGBoost), SQL (Intermediate), R Programming (Beginner), PHP (Beginner)
- **Data Analysis & Visualization:** SPSS (Intermediate), Orange Software (Intermediate), Arena – Discrete Event Simulation (Intermediate), Vensim – System Dynamics (Intermediate), Power BI (Beginner), Tableau (Intermediate)
- **Software, Cloud & Tools:** VS Code (Proficient), Microsoft Office Suite (Proficient), Canva (Intermediate), AWS Cloud (Beginner), Linux (Beginner), Google Workspace

Soft Skills:

- Data Storytelling, Proactive Communication, Adaptability & Continuous Learning, Time Management & Task Prioritization

Languages:

- Chinese (Native), Malay (Fluent), English (Intermediate - MUET Band 4.0)

ACHIEVEMENTS & INVOLVEMENTS

- Participant: Voices of Youth 2026 – AI & Youth Unemployment Webinar (May 2026)
- Participant: InvestSG Trading Tournament (April 2026) – Peak Rank #28
- Participant: Investment Seminar by BYIC UUM (June 2024)
- Participant: UUM Chinese Chess Tournament 2.0 (June 2024)

EXPERIENCE

IT Summer Intern, Cygnus Technology Solutions Sdn. Bhd. **June 2023 – Sept 2023**

- Executed large-scale deployment and configuration of enterprise workstations (Dell OptiPlex SFF PCs) with dual-monitor setups.
- Managed physical network infrastructure including Ethernet routing, Cat6 termination, RJ45 crimping, and rack organization.
- Configured network devices such as Yealink VoIP phones, printers, access points, and CCTV systems.
- Supported corporate meetings with AV setup and monitored virtual AGMs via GoToWebinar.
- Performed hardware troubleshooting and upgrades (PCIe cards, CMOS batteries).
- Set up remote access systems using TeamViewer for continuous IT support.

ACADEMIC PROJECTS

Final Year Project (FYP): Optimizing Dietary Plans for Athletic Weight Gain in Malaysia

- Applied Linear Programming to optimize macronutrient distribution and meal planning.

INDEPENDENT DATA PROJECTS

Asset Allocation Dashboard ("Infinity 6 Protocol")

- Developed a quantitative finance dashboard using Python for asset tracking and optimization.

Stock and Customer Management System

- Built a system using Python and SQLite for database management and tracking.
