LETTER OF RECOMMENDATION: WONG JING QUAN

I am pleased to recommend Mr Wong Jing Quan, who completed his internship with Rhee Analytics Sdn. Bhd. as a Data Analyst Intern from 18 July 2026 to 2 November 2026, as part of his Bachelor of Science with Honours (Decision Science) at Universiti Utara Malaysia. As his internship supervisor and reporting manager, I supervised his work directly throughout this period.

Rhee Analytics provides financial data analytics services. Our work depends on collecting, cleaning and analysing large amounts of market and company data from Singapore, Hong Kong and the United States, and Jing Quan quickly became a productive member of the team.

His main project was an automated data pipeline for Singapore Exchange (SGX) insider disclosure filings. He built the steps that read and extract data from thousands of PDF filings, checked the results carefully against the original documents, and set the whole process to run automatically every night. He also rebuilt our SGX Stock Screener in Excel so that new filters can be added easily, and redesigned our HKEX Stock Screener, cutting its opening time from about five minutes to a few seconds. In addition, he replaced several of our older SAS and PHP programs with faster Python, SQL and DuckDB versions, and built a pipeline that collects US earnings dates from several sources.

What stood out most was his attention to detail and his careful approach to problem solving. When results looked wrong, he traced the cause step by step instead of guessing, and he tested every change against real data before relying on it. He wrote clear documentation for each tool so that other team members can continue using them, and he kept me updated on his progress and on any issues he found. He was reliable, willing to take on unfamiliar tasks, and learned new tools such as DuckDB, Power Query and Selenium quickly.

Based on his performance during the internship, I am confident that Jing Quan will be a valuable addition to any organisation looking for a data analyst or a similar role. I recommend him without reservation.

Please feel free to contact me if you require any further information.

Yours sincerely,

RHEE ANALYTICS SDN. BHD. 202201020482 (1466179-M)
